## Typical System Layout

### Typical System for Lower-Volume Automotive Application

This drawing is only a guide to provide a typical equipment range and system layout. Consult an authorized Graco representative before selecting or installing any Graco lubrication equipment or designing a lubrication system.

### System Components

- A Gear Oil**  
Hand-operated lever pump
- B Transmission Fluid**  
Hand-operated lever pump
- C Grease (120-lb/55kg)**  
Fire-Ball 50:1 portable grease system  
3/8 in air regulator with gauge,  
hose and dispense kit
- D Waste-Oil Receiver**  
Oil Ace Pressurized Oil Drain
- E Wall-Mounted Hose Reels**  
250 Series air and motor oil hose reels  
EM5 electronic oil dispense meter  
water bibb, shut-off valves
- F Motor Oil**  
Falcon 3:1 pump for motor oil  
3/8 in regulator with gauge  
3/8 in air filter  
Thermal relief kit  
Fluid shut-off valve  
Bleed-type air shut-off valve  
Hose and fitting kit
- G Air Compressor**  
3/4 in master air line filter  
3/4 in master air line lubricator  
3/4 in air line shut-off valve
